

## REFERENCE LIST + DEVELOPMENT TEAM

# STATUS EPILEPTICUS

## PEDIATRIC PACKAGE

---

Led by TREKK Co-Directors Drs. Mona Jabbour (CHEO) and David Johnson (Alberta Children's Hospital), the Status Epilepticus PedsPac is the result of a collaboration with content experts, Dr. Lawrence Richer (University of Alberta), Dr. Jeremy Friedman (SickKids, the Hospital for Sick Children). Development of the Status Epilepticus PedsPac involved a rigorous and iterative process, bringing together experts from a variety of specialties (nursing, simulation, emergency medicine, intensive care, and pharmacy). To learn more about the developers, see the References & Development Team document below.

The Status Epilepticus PedsPac is currently being used at EDs across Canada to care for critically ill children. TREKK continues to provide training on the Status Epilepticus PedsPac at hospital and community EDs. For more information on training and education, contact your local [TREKK Site Representative](#).
